Cultural Learning!

When you can meet your pen pal, how do you feel?

In the classroom

Whose letters are these? Hey, these letters are yours! Do you have a pen pal from a different country? If yes, I think that you are having fun in class. Because you can meet a new friend, share your Japanese culture, and use your English. Writing letters to your pen pal in English must really make you happy.

But, if you can meet your pen pal by Skype, how do you feel? At first, there are school rules. A video chat is risky. It makes you scared to speak English. But, it must also make you very happy to see your pen pal for the first time!

If Skype is used in English class and in your pen pals' class, what do you want to ask to your pen pal?

Make groups.
