

# Interview Card

## ***Japanese Manga and Anime***

Westerners used to think it childish that adults read comic books on the train or at coffee shops in Japan. However, the art and uniqueness of Japanese “manga” and “anime” are gradually becoming better understood. As a result, more and more adults enjoy them in Western countries too. Some of them even wear the costumes of their favorite manga or anime characters.

Your story should begin with this sentence: One day, Mr. and Mrs. Fujita were talking about Linda, who was coming from the United States the next week to stay with them.
