Electronic Money

Nowadays, various kinds of electronic money are available. One example is prepaid shopping cards, which can be used in stores instead of cash. Many stores give special discounts to people who pay with these cards. By doing so, they try to attract more customers. However, some people avoid using electronic money because it is easy to forget how much they have spent.

Your story should begin with this sentence: **One day, Mr. and Mrs. Yamada got a prepaid shopping card at a supermarket.**
